The advertisement of products or services not directly related to providing dental care to the public, such as insurance, banking services, investment and real estate opportunities, and other non-dental products shall not be accepted unless said product or service is designed and intended to be of special and direct benefit to practicing dentists and their families.

11. Books related to the practice of dentistry will be considered eligible for advertising. In addition, books of interest to dentists and their families as consumers will be eligible for advertising.

12. The advertisement may include the use of a competitor's name and the description of a comparable product or service, including price, if the comparison is made in a manner that is not false or misleading.

13. "Institutional-type" advertising germane to the practice of dentistry and public service messages of interest to dentists are eligible for appearance in the GHDS Journal.

14. Alcoholic beverages and tobacco products are not eligible for advertising.

15. Special purpose foods and nutritional supplements (for example, foods for low-sugar diets, postoperative diets, and therapeutic diets) are eligible when their uses are supported by acceptable data.

16. The GHDS reserves the right to decline advertising for any course that involves the teaching or use of a product or technique that is the subject of an unfavorable or cautionary report by an agency of the American Dental Association.

The purpose of these Advertising Standards is to advise potential advertisers of the requirements of the Greater Houston Dental Society and to assure fair and uniform application. These standards shall be implemented and interpreted by the Editor, subject to review by the GHDS Board of Directors. The physical placement of such categories in the GHDS Journal shall be at the sole discretion of the Editor.
